

The background features a complex, abstract design with a color palette of deep reds and blacks. On the left, there are overlapping semi-transparent red shapes. The right side is dominated by a series of parallel, slightly curved lines that create a sense of depth and perspective, resembling a tunnel or a series of light paths. The overall effect is futuristic and high-tech.

PHOTONIC.

LIGHTING SOLUTIONS

WE ARE PHOTONIC ...

... a UK based designer & manufacturer of LED lighting products, collaboratively working with our clients to engineer technology based, value driven project solutions.

Our team has already completed thousands of projects across, industry, office, education and hospitality, and our broad product portfolio utilises market leading technology brands and components.

MAKING INTELLIGENT LIGHTING SIMPLE

Lighting represents one of the easiest ways to improve energy efficiency on a building, with a relatively low investment for a quick cost and energy return.

To often these solutions however can become over complicated and expensive, when they really don't need to be.

WE OWN IT ...

By creating intelligent lighting solutions, we help our clients save energy & cost. Using intelligent sensors, wireless controls, dimming and remote monitoring, savings can be further enhanced.

Not only that, we manage the whole process from system design & specification, lighting calcs, paybacks, manufacture and commissioning.

... YOUR PROJECT, OUR SOLUTION

APPLICATION EXAMPLES

Distribution Center of Leading Cereal Manufacturer

Compact High Efficiency
Industry LLB Linear c/w
Integral Emergency

WAREHOUSE

Online Clothing Distribution Center

Batten & Highbay Install using PIR sensors

WAREHOUSE

Premium Soft Drinks Distribution Center

Osram/Silvair Smart Wireless Grouped
System with UltraBAY3 c/w High Output
Self-Test Emergency

WAREHOUSE

Bestway – Batleys Food Distribution Warehouses

National rollout of 28 distribution centers.

Customised British Built High Bays with PIR Dimming.

WAREHOUSE

General Warehouse
