

Installation Instructions

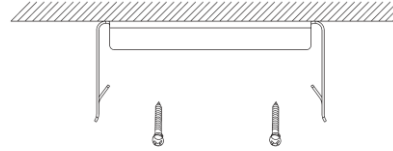

Series 120

PHOTONIC.
LIGHTING SOLUTIONS

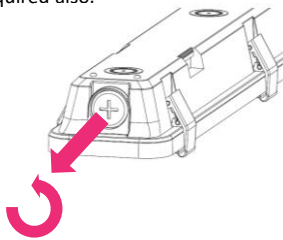

1. Ensure power is off prior to starting. Measure bracket location as per length of luminaire.

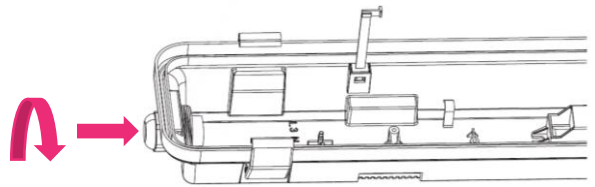

2. Install bracket as per centres required onto suitable surface.

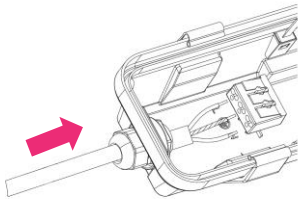

3. Remove bung from end for cable entry. Knockouts can be used on rear if required also.

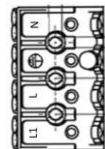

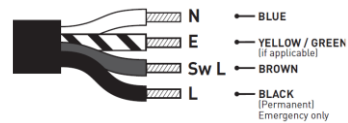

4. Insert suitable cable gland or conduit entry to maintain IP65 rating.

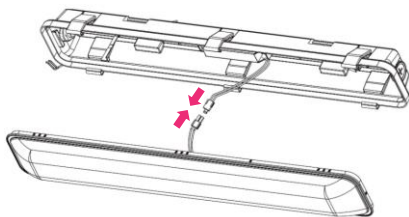

5. Feed in cable to prepare for wiring, tighten cable gland.

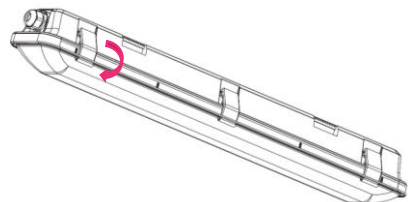

6. Wire as per local regulations.

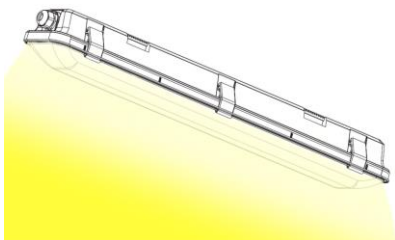

7. Plug together secondary wiring.

8. Clip together front diffuser and housing ensuring no cables are trapped.

9. Switch power on. For sensor settings refer to individual instructions.
