

SERIES 543

Emergency

PHOTONIC.
LIGHTING SOLUTIONS

OVERVIEW

Series 543 is an emergency exit blade with Wireless Bluetooth monitoring built in. Series 543 requires only a mains connection and the communication is handled via a Bluetooth Casambi or Hubsense Mesh, which collates all the data. This data is then utilised by the Series 545 in a Casambi environment in order to send out emergency lighting reports and schedule from a central location, or via a gateway and web dashboard for the Hubsense system. Series 543 comes complete with all the Legends required for any escape route.

FEATURES

- Bluetooth Wireless Mesh Exit Blade
- All legends supplied
- Suspension kit supplied as standard

OPTIONS

- Recessed kit is optional
- Wall, ceiling, surface mounting options, with provided kit.
- Casambi or Hubsense options
